

Smart Water Croatia 2019 - Danish Croatian Water Days

www.urbandanish.solutions/watercroatia2019

Programme frame • Croatia • 7-9 May 2019 • Public water management

Tuesday, 7 May 2019 - Central Croatia: Zagreb

Address: Vukovarska 220 (Hrvatske vode)

8.30 - 09.00 **Welcome speeches and high-level presentations**
H.E. Mr. Christian Thorning, Danish Ambassador to Croatia
H.E. Mr. Tomislav Čorić, Minister of Environment and Energy, Croatia (high-level presentation, water projects)
H.E. Ms. Gabrijela Žalac, Minister of Regional Development and EU Funds, Croatia (high-level presentation, EU funds)

9.00 - 9.30 **Introduction - Croatian experience: Water efficiency**
Mr. Zoran Đuroković, President of the Board, Hrvatske vode (Croatian Waters), Croatia. How Croatia became the most water-projects-intensive country in the EU. Executive overview of water supply and wastewater projects.

9.30 - 10.30 **Introduction - Danish experience: Sustainable water**
Mr. Andreas Julskjær, Danish Water Technology Group (Denmark). Water technology is one of Denmark's key competencies. Already in the 1970'ies, Denmark had the world's first environmental Ministry which imposed strict environmental legislation. This has given Denmark an edge when it comes to innovation, sustainability and holistic, energy efficient solutions.

Mr. Dines Thornberg, BIOFOS A/S (Denmark). BIOFOS is Denmark's largest wastewater company. BIOFOS cleans the wastewater for 1.2 million residents of the metropolitan area of Copenhagen at their three treatment plants Lynetten, Avedøre and Damhusåen. BIOFOS utilizes the resources in the wastewater for climate-friendly energy in the form of electricity, biogas and district heating for the grid.

Short presentation of the Danish Water Delegation to Croatia and their key competencies: Alfa Laval Copenhagen, Danfoss, Grundfos, Liqflow, Rambøll, Westcome Heat Exchangers.

10.30 - 11.00 **Q&A**
